

Global Warming Prevention

Abstract

Global climate change, judging from the debate on the subject, is one of the major concerns of the world today. However, the concern of those closely following the debate is that it has created more panic than concrete strategies to abate and adapt to the global change. The situation seems to present a crisis where the uncertainties of predicted global change scenarios combine with the risk averse nature of decision makers to obstruct concrete action and encourage the "wait and see" approach. However, the cumulative nature of warming may not permit the luxury of "wait and see". Hence, there is a need for action, despite the uncertainties of predicted changes; but action requires concrete contexts to facilitate anticipatory measures by the decision makers. In order to resolve the problem, one should look for certainty components in the complex of uncertainties that characterize the whole problem. This paper argues that such certainty components can be projected by altering the current skewed perspectives on the problem. Taking the lead from recent conceptual work on "cumulative change," as against "systemic change," to properly understand global environmental change, the paper presents an approach to identify and use the "certainty components." The paper illustrates this approach with reference to the semi-arid tropical region of India and, to a limited extent, the Himalayan mountain region.

Letter of Transmittal

September 26,2019

Professor Dr Md Abdul Haque

IUBAT-International University of Business Agriculture and Technology 4, Embankment Drive
Road, Sector 10

Uttara Model Town, Dhaka -1230, Bangladesh

Subject: Letter of Transmittal

Dear Sir,

With due respect, this is our pleasure to present my thesis report entitled— “Global Warming Prevention?” I have prepared this report as an assignment for learning and practicing of Thesis Writing. I have tried my level best to prepare this research to the required standard. Now, I am looking forward or your kind appraisal regarding this thesis report.

I shall remain deeply grateful to you if you kindly go through this report and evaluate my performance. I hope that you would find the report comprehensive and competent augmented.

Sincerely yours,

Shezan Montakim Bhuiyan

ID: 17203080

Program: BCSE

Student's Declaration

I Shezan Montakim Bhuiyan a student of BCSE hereby declare that I own the full responsibility for the information, results etc. and that the work has not be submitted for any other degree or professional qualification. I confirm that the work submitted is my own. this research paper on the stated topic has only been prepared for the fulfillment of ART 202 assignment.

It has not been prepared for any other purposes, rewards, or presentation.

Shezan Montakim Bhuiyan

ID: 17203080

Program: BCSE

Acknowledgement

Firstly, I want to thank my family, who has endowed their immeasurable-innumerable support and encouragement to attain this exquisite event of my life.

I would like to express my sincere gratitude to my advisor Professor Dr Md Abdul Haque for the continuous support of my thesis study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my thesis study.

Supervisor Declaration

This is to certify that Thesis report on “Global Warming Prevention” has been carried out by Shezan Montakim Bhuiyan Id: 17203080 from Department of Computer Science and Engineering of IUBAT- International University of Business Agriculture and Technology as a partial fulfillment of ART 202 assignment. The report has been prepared under my guidance and is a record of the bona fide work carried out successfully. To the best of my knowledge and as per their declaration, no parts of this report has been submitted anywhere for any degree, diploma or certificate. Now he is permitted to submit the report. I wish him success in his future endeavors.

Thesis Supervisor

Professor Dr Md Abdul Haque

Professor and Chair of the Department of Computer Science and Engineering.

IUBAT- International University of Business Agriculture and Technology

Department Certification

On behalf of the Department of Computer Science and Engineering of International University of Business Agriculture and Technology, we the undersigned certify that this Thesis Report “Global Warming Prevention” for the award for the bachelor of Computer Science and Engineering (BCSE) degree was duly presented by Shezan Montakim Bhuiyan Id:17203080 accepted by the department.

Prof. Dr. Utpal Kanti Das

Co-Supervisor, Coordinator and Professor

Department of Computer Science and Engineering

IUBAT- International University of Business Agriculture and Technology

Professor Dr Md Abdul Haque

Professor and Chair of the Department of Computer Science and Engineering.

IUBAT- International University of Business Agriculture and Technology
